- * **Walk-in clinics** - Walk-in clinics are freestanding health care facilities that (a) may be located in or with a pharmacy, drug store, supermarket or other retail store; and (b) are open on a scheduled or unscheduled basis. Urgent care centers, emergency rooms, the outpatient department of a hospital, ambulatory surgical centers, and physician offices are not included.
- ** **Pharmacy** - The drug formulary includes precertification, step therapy and quantity limits. Choose Generic: For PPO based plans the cost difference penalty for choosing a generic drug applies. For HMO based plans the cost difference penalty does apply to the members accumulators. For specific details, consult the Summary of Benefits and Coverage.
- *** **Embedded** - No one family member may contribute more than the individual deductible/out-of-pocket limit amount to the family deductible/out-of-pocket limit. Once the limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the year.
- † **TIF (Non-Embedded)** - The individual deductible/out-of-pocket limit can only be met when a member is enrolled for self only coverage with no dependent coverage. The TIF limit is met by a combination of family members or by any single individual within the family. Once the family deductible/out-of-pocket limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the year.
